MRS. MAYBRICK'S CASE.

Hamilton" Writes Gladstone Boston, Jan. 5 .- | By the Associated "In the name of God I arraign you, the head of the British government, for the murder of Florence Elizabeth Maybrick, now dying in the convict prison at Woking." So writes
Miss Abigail Dodge, the authoress
known to the literary world as "Gail
Hamilton," to Rt. Hon. William E.
Gladstone, Prime Minister of Great Britain. Miss Dodge declares that there is no evidence of the imprisoned woman's guilt, and she shames the great government for binding the feeble hands of a woman in a living tomb and demanding more evidence of her innocence. After reproaching the British government and Home Office in particular for their barbarous action, Miss Dodge declares that they are guilty of deliberate murder. Closing she says: But if there be a God who makes and notes the ways of this world, who hears the voice of innocent blood crying unto Him from the ground, it is better to be the voung wife and mother perishing in Woking prison than the Prime Minister of the government which works her torture and her slaughter. er slaughter.

Official Trial Trip of the Monterey.

She Fully Comes Up to the Requirements of the Contract.

Speeded for Four Hours on the Bay of San Francisco

The Test Declared a Success in Every Re spect-More Than the Required Horse-power Developed by Her Engines.

By Telegraph to The Times. San Francisco, Jan. 5 .- [By the Associated Press. | The official trial trip of the new coast defense vessel Monterey occurred in the Bay of San Francisco today, and was entirely successful. The official computations upon the data which were taken will not be completed for a week or two, and the exact amount of horsepower which the Monterey developed will not be known till then, but approximate computations were made as soon as the run was finished this afternoon, and these show a development of 5452 horsepower on the main engines alone. The horse power of the auxiliary engines is estimated at from one hundred to two han-

Both the contractors and naval engineers who were on duty during the trial are confident that the 5400 horsepower required by the contract has been exceeded, and they express en-tire satisfaction with the performance of the engines today. During the four hours' run under forced draft there was not the slightest accident to any part of the machinery. The maximum revolutions was 168 per minute and the average for the four hours was about one hundred and sixty-two. As there is no speed requirement in the contract no great effort was made to ascertain the exact speed of the vessel during her run today, but calculations based upon a patent log and imperiest shore ings, showed a maximum speed of over fifteen knots per hour, and an average speed of about fourteen knots. The members of the naval trial board considered that this speed was all that could be expected of a vessel of the Monterey's type. The feature of the trial run which at-

tracted the greatest attention on the part of the naval engineers was the entirely successful performance of the Ward coil boilers, an American inven-tion which is used for the first time on

so large a scale or "in battery," and which the Navy Department placed in the Monterey as an experiment. The increase in the number of revolutions over any previous performance of the engines was due to the change which was made within the past week in the pitch of the propellers. During the last preliminary run, over a week ago, the steam pressure was maintained at the highest possible point, but it was impossible to obtain more than 154 revolutions as the maximum and the average was less than 150. With that number of revolutions the indicated horsepower was about 5290, which was 200 less than the contract requirement and which would have subjected the Union Iron Works to a penalty of determined to reduce the pitch of the screws for the purpose of obtaining an increase in the number of revolutions per minute and consequently an increase of horsepower. The pitch of the screws was formerly 12 feet 6 inches, but it was reduced about eight inches.

The Monterey left her moorings of the Union Iron Works early this morning and steamed slowly around Mission Bay until she was boarded by the trial board, of which Rear Admiral George Brown is the senior officer. She continued to cruise around for half an hour more, gradually increasing the steam pressure and revolutions of her engines. About 9:40 she passed Hunter's Point headed for Angel Island and started on her official trial. The engines were making 162 revolutions at the outset, making 162 revolutions at the outset, and in five minutes they had worked up to 164. For the first half hour the tide was running strong against her and there was a stiff wind dead ahead. The water was piling up on her forward deck in a great wave five feet deep and running off the sides in torrents. Right at the point of the bow it was banked up by the anchors and hawse pipes and then it swept back almost to the bar-bette of the forward turret. Clouds of spray were caught up by the strong wind and swept over the bridge and the superstructure above the deck, and persons on the bridge were drenched in a moment.

Tugs and ferryboats gave the coast defender a free course as she passed Goat Island, and every steam craft on the bay near her saluted with its whistle. A half hour's run was made on a straight course, and the engines maintained an average of about one hundred and sixty-four revolutions. The en-gineer took three sets of indicator cards in the half hour upon which the compu-tations for horse-power will be made. A glance at the first cards taken showed that they indicated all that the contractors could wish, and there was no doubt that the race against horse-power would be successful if the pressure could be maintained without accident for the four consecutive hours. After she had reached the eastern shore of Angel Island a long turn was made Angel Island, a long turn was made with the engines still working at full power. The vessel then returned to

power. The vessel then returned to Hunter's Point over the same course, and this time the wind was with her, and there was no spray flying.

The cards taken on the second balf hour were even better than the first ones, and on this run the maximum of 168 revolutions was reached. The Monterey occupied the four hours in rapid cruising back and forth over the same course, and the engineers took three sets of cards every half hour.

The trial run was finished about 1.40 p.m., and was announced by a long and jubilant blast of the fog siren in Mission-Bay, which carried the news to the em-Bay, which carried the news to the em-ployes of the Union Iron Works, who constructed the vessel, that the Mon-terey had won the victory.

Sensational Reports About the President's Health.

Representative Bowers Poising Himsel for a Kick at the Administration-Little Change in Blaine's Condition-National Notes.

By Telegraph to The Times.

WASHINGTON, Jan. 5.—[By the Associated Press. | Mr. Cockrell of Missouri presented a petition in the Senate this morning outside the usual run of petitions. Mrs. Effle G. Snow of Shell City, Mo., represents that her daughter, Lora Snow, aged 19 years, went to Richfield, Sevier county, Utah, and became a teacher in the Presbyterian mission school. She died October 4, 1889, under circumstances that cast grave doubts as to the cause of her death. Mrs. Snow says that she has been hampered and delayed in getting the facts relative to the death, and in recovering the body. It was claimed that death was caused by typhoid fever, and be-fore she could return to Missouri and secure proof that typhoid fever was not contagious, she says, her daughter's body reached such a condition that a medical examination could not be made to determine the cause and manner of Mrs. Snow says that this is not the

only young woman teacher whose body has been disposed of in such way as to leave suspicion of foul play. For this reason Mrs. Snow asks an investigation of the manner in which this mission is carried on, a request in which citizens of Shell City join.

CEICAGO, Jan. 5.— By the Associated Press. The Herald's Washington correspondent sends, the following:
"Friends of President Harrison, who have had occasion to see and talk with him of late, are very much concerned about his condition, and express fear that his health will break down before the close of his administration. It is said that the President's health was the chief argument used by his friends to have him accept the overtures made by Stanford University of California to go to the Pacific Coast, and that it is not at all unlikely that he will agree to de-liver a course of lectures for that insti-

WASHINGTON, Jan. 5 .- Little Martena Harrison continues to improve, but the White House is still quarantined, and big placards containing the information that contagion exists within are dis-played on the entrances to the private part of the mansion. When the quarantine against the White House is removed it is probable that the President will take a few days' recreation in duck shooting. In view of the state-ment published that the President's health is failing and likely to break down before his term of office is closed. Postmaster-General Wanamaker questioned as to the facts, and he said that the President is in perfect health and has not in four years been away from his desk a single day from per-sonal sickness. He has for months been out in the wilderness of suffering, and the shadow of it lingers for a long time upon a nature that feels as deeply as his.

Suit at San Francisco Which Recall the Days of Ralston and Sharon-Good News for Beet-

By Telegraph to The Times.
VICTORIA (B. C.,) Jan. 5.—[By the As ociated Press.] Chief Justice Begbie this morning gave judgment in the case of the Crown vs. the schooner Oscar and Hattie against the schooner. The Chie: Justice held that the seizure was perfectly legal, and therefore ordered the schooner and cargo condemned. The judgment came like a thunderbolt to sealers, who had expected that the schooner would be discharged. The owners of the schooner, in their statement of defense, claimed that the schooner went to Atu for water, was seized while taking water, further that there were no seals within several hundred miles of Atu. It is probable the case will be taken to the

A Suit Involving Their Transactions With the Bank of California. San Francisco, Jan. 5.— By the Associated Press. | Mrs. Leonide Burling filed an action in the Superior Court yesterday against the Bank of Califor-nia and trustees and executors of the estates of William Sharon and William Ralston, deceased, and others, in which she charges that in February, 1873, the Montgomery Real Estate Company, Mission and Pacific Woolen Mills, and the firm of George P. Kimball & Co. became indebted to the Bank of California in the sum of \$3,500,000, the amount loaned being seven-tenths of the paid up capital of the bank at the time. Ralston, through another party, purchased the indebtedness, and it is further charged that the bank assigned to Ralston, in trust, collateral and se-curities on said indebtedness. Subsecurities on said indebtedness. Subse quently, on the death of Ralston, Sharon was appointed trustee and took possession, it is alleged, of all Ralston's property. It is further charged that Ralston and Sharon used large sums of money belonging to the bank in stock appendictions, and that certain large. speculations, and that certain large ums are owing Ralston's estate from

the Sharon trust.

It is alleged that Sharon controlled the Bank of California, and the direc-tors of the bank would not call upon him for an accounting of the large sums due the bank, both by Ralston and Sharon. Wherefore plaintiff, as a stockholder in the bank, prays a decree of court closing up the Sharon trust and accounting for the moneys due the

Higher Prices for Sugar Beets.
ONTARIO (Cal.,) Jan. 5.—The Chine sugar factory announces an increase in the price of beets for the coming sea-son. The price of the minimum per cent. of sugar, 12, will remain the same, \$8.50 per ton. Instead of 25 cents additional per ton for each per cent. of sugar above 12, 40 cents will be paid. As beets average this will bring farmers 50 to 75 cents more per ton than last season. Three thousand acres have already been contracted for. Planting will probably be increased to

4000 acres. Smith and Dixon to Fight.

SAN FRANCISCO, Jan. B.—A dispatch was received from New York yesterday was received from New York yesterday, stating that George Dixon would accept' Solly Smith's challenge, providing that Smith's backers would bet \$5000 on the side. A canvass of Smith's friends revealed the fact that he could command the amount named, and a reply was sent to New York that the money would be featherning. The match is would be forthcoming. The match is now regarded as a certainty. It will probably take place at the Coney Island Athletic Club.

IN SOCIAL SPHERES.

THE PERRY-WOOD-CHANDLER BECEPTION. The reception given by Mrs. W. H. Perry, Mrs. Modini-Wood and Mrs. Burdette Chandler, yesterday afternoon, was a distinctively fashionable affair and was conducted in the charming manner which characterizes all such and was conducted in the charming manner which characterizes all such functions at the Perry mansion. The hours for receiving were from 2 to 5 p.m., and, during that time, the street in front of the stately home on Pearl street was literally blockaded with equipages, from which stepped elegantly-gowned women, who were admitted by a small colored butler into the entrance hall, where, they were at once confronted by a brilliant scene. The blinds were drawn and the rooms were illuminated by gaslight. The trio of hostesses were stationed in the south drawing-room, standing immediately at the left of the entrance from the hall, and in front of the bow-window, from which flamed brilliant poinsetta blossoms through a misty drapery of lace window hangings wreathed in smilax.

Mrs. Perry wore an elegant silk gown of a rich, dead black. Next her stood her daughter, Mrs. Modini-Wood, who wore a magnificent white satin costume, the square, low-cut neck edged with beaver, and exquisite lace falling in a cascade down the panels of the skirt. Mrs. Chandler wore a stylish reception gown of dark electric blue, with a velvet bodice trimmed with silver passementerie.

Filtting through the rooms, assisting ver passementerie.

Flitting through the rooms, assisting to entertain the guests, were a bevy of lady friends of the hostesses, Mmes. Dr.

Ross, I. N. Van Nuys, Caswell, S. C. Hubbell, Larrabee and Miss Hoyt. The light from the chandeliers flashed through a mist of smilax, and choice flowers were arranged in advantageous niches with charming effect. On a cabinet stood a howl of lovely white flour. inct stood a bowl of lovely white fleur de luce and a dainty curtain of smilax with a border of the exquisite golden bells of the bignonia venusta fell from the moulding of the arch separting the drawing-room from the apartment beyond. A frieze of smilax topped the window with delicate tradvise falling windows with delicate tendrils falling the full length of the curtains. In the dining-room small tables were spread, and salads, tea bisouits, olives, chocolate, coffee, ices, cake, salted almonds, sugared walnuts and confectionery were served by deft-handed waiters. The mantel here was massed waiters. The mantel here was massed with beautiful roses and a magnificent silver epergne on the sideboard was filled with rare flowers. In a room at the rear, screened from view, were the musicians, whose presence was known only by the sweet music which floated out and filled the rooms with a soft melody, just loud enough to drown that buzz of conversation which sometimes

rises to so unpleasant a pitch in crowded reception rooms. In the library across the hall punch was served from a large crystal bowl, So delightful was the whole affair that it was with a feeling of reluctance that the guests one after another said adieu to the pleasant hostesses, each one lingering till the last possible moment, as if loth to leave the charming atmos-

phere of social hospitality.

The guests included about two hundred prominent ladies, among whom were noticed Mmes. R. M. Widney, S. S. Sallsbury, Margaret Hughes, C. Du-commun, C. Prager, W. Pridham, J. O. Wheeler, Capera R. J. Widney, A. Mc-Farland, Clacius, Klokke, W. Niles, E. P. Johnson, the Misses Johnson, the Misses Widney, Miss Adele O'Melveny, Mmes. I. Smith, E. B. Miller, J. M. Stewart, G. Four bills in all have been prepared

by the Law Committee and sent up to the capital; one is a econstitutional amendment, providing for abolishing the offices of City and County Tax Collector, making the County Treasurer ex-officio tax collector. A second amends the law regarding the employ ment of official reporters, cutting down their fees and reorganizing the system generally. The third provides that no county shall be divided unless a majority of the voters favor such division, while the fourth is devoted to the regulation of miscellaneous salaries and fees in the

county offices. A considerable amount of money has already been subscribed for the purpose arready been subscribed for the purpose of aiding in the reform movement, and there are still a few more solid tax-payers who stand ready to contribute further to the worthy cause. The Hotel One of the Best of its Kind in the Country.

For ages people of wealth have sought the milder latitudes for winter homes. They have felt that no question of the cost of living could offset the question of personal comfort. Then the next consideration was that of hotel accommodations, and for years the south of Europe was the most favored of winter resorts, simply because they were prépared there with good hotels to receive all the guests who applied for first-class accommodations. Throughout the Riviera enterprising capitalists had inthe Riviera enterprising capitalists had invested their money in houses designed to meet the demands of health seekers, home vested their money in houses designed to meet the demands of health seekers, home seekers and pleasure seekers, until every lake side, hill side and ingle side was occupied by a first-class hotel. The tourist found there all that heart could wish in the way of good living and polite attention. But at last the cost of living in this favored land became ir isome. The very rich set the pace too high for those of more moderate means, and other lands were investigated with regard to the advantages of winter homes. In Southern California all that could be desired was found, except the hotel accommodations, which for a time was lacking. But now we have supplied this want and the world has no more favored spot than this in respect to first-class hotels. All over the sunland may be found excellent hotels, among which none surpass that splendid resort at Redondo Beach. Here they have an establishment which is first-class in every particular, with climate, scenery and excerthing else in its favor, and yet with charges far below those met with elsewhere. Redondo Beach is only eighteen miles from Los Angeles, and can be reached in forty-five minutes either by the Redondo Rallway or the Redondo Beach ranch of the Santa Fe Rallroad.

LIVELY STAMPEDE Four Prisoners Attempt to Escape from There was a lively stampede in the chain gang yesterday morning, when four of the "hobos," who are serving vagrancy sentences, atte escape. They were loaded down with balls and chains and Oregon boots, but

this not did deter them from giving the guards'a lively chase. The chain-gang wagons were wending their way slowly down Orange street, when the four frisky "hobos" suddenly jumped from one of the wagons, and, after throwing the chains and balls over their shoulders, they started off on the dead run across lots. Officer Lockwood captured two of

them after a lively chase, and a couple of citizens ran the third one down, but the tourth made good his escape. The chain gang is larger now than it has been for some time past, and as there are but two guards, the only won-

der is that there are not more escapes.

THE EAST SIDE. Death of George Butler Griffin, the Well-Known Auttorney. George Butler Griffin, Esq., the well-known attorney, and, probably, the best-informed historical student of Southern California, died at 1 p.m. yesterday, having been confined to his home on Downey avenue for some days with a severe attack of pneumonia.

Mr. Griffin was born in New York

City in September, 1840, but had spent

many years in Los Angeles and vi-cinity. He leaves a widow and large

family of children to mourn his loss. Horticultural Commissioner The Southern California Horticultura Commissioners held their periodical meeting yesterday morning in the rooms of the Chamber of Commerce, Hiram Hamilton presiding and Dr. Chaffin acting as secretary. Reports from Ventura, San Bernardino and Orange counties were read, when Maj. Jones of San Diego outlined briefly the substance of the business transacted at the last meeting of the State Board of Horticulture at San José. Other topics or general interest were discussed at Commissioners held their periodical or general interest were discussed at some length, after which the commis-

THE movement for good roads has received a decided impetus in the opening of the Elysian Park boulevard, otherwise el Camino del Burro. Already the public show an appreciation of the favor, and every day in the week, but especially on Sunday, the boulevard is traveled by numerous sightseers. Now, let's have that Santa Monica boulevard completed.

It is about time to prevent excitable young ladies from handling daggers in amateur dramatic performances. GAIL HAMILTON has written a sensational letter to Gladstone, accusing him of the murder of Mrs. Maybrick, who is said to be dving in iail. A recent report stated that the prisoner had swallowed needles in order to induce hemorrhage and secure her release. The case is a complicated and somewhat mysterious one, but it is certainly unreasonable to hold the venerable English Premier responsible for the fate of this woman. A DISPATCH from Ontario announces that an increased price will be paid for sugar beets at the Chino factory the coming season. Instead of \$3.50 per ton and 25 cents extra for each per cent. of sugar above 12 in the beets, the factory will pay \$3.50 and 40 cents for each additional per cent. The circular issued by Richard Gird announging the new departure, is published elsewhere. This increase may have been caused by the inauguration of the cooperative beet-sugar factory at Anaheim, which will pay growers who are stockholders \$4 a ton for beets assaying 12 per cent. and 50 cents additional for each extra per cent. Not only this, but the stockholders also receive the net profits of the factory, which, it is expected, will amount to \$200,000 a year, or about \$67 per acre. An article descriptive of this interesting 'and important enterprise will appear tomorrow, in the agricultural department of THE TIMES.

Ex-Mayor Hazard gave an excellent reason for not signing the contracts for sewer, extending beyond the Centinela hills, before he retired from office. He portion of the outfall sewer should not be undertaken until that portion next to the city is completed and the necessity for the completion of the entire sewer to the sea demonstrated. At the Centinela hills the entire sewage can be utilized for irrigation, while to construct the sewer thence to the ocean will cost \$200,000, and interest and maintenance \$20,000 per annum. On the other hand, the Mayor says the city could buy a sewer farm of ut three thousand acres and rent it for at least fifteen dollars an acre, giving a return of \$45,000 annually. is entirely in line with the course tently advocated by THE TIMES. nd is evidently in the interest of the Only in the remote eventuality hat the sewage cannot be disposed of Ill there be any necessity for an outat to the ocean. Railroad Titles and Land Jumpers. It is to be feared that the recent decision of the Supreme Court of the United States, adverse to the Southern Pacific Railroad Company, and forfeiting an immense area of land in California hitherto claimed by that corporation, will have a tendency to precipitate a great deal of contention, lawlessness, and perhaps some bloodshed. The case of the young man now in jail for defending with a shotgun his mother's land, which had excited the cupidity of jumpers, is probably the fore-

runner of many similar occurrences. During the years that the Southern Pacific Railroad Company was the nominal owner of these lands, it sold thou sands of acres to settlers and specula tors on contracts and deeds. Many of character is reported from Elgin, Ill. the farms thus disposed of have been improved by the holders and are now attractive and valuable properties. These, of course, are the very places that will attract the land-seek ers. Reports from the interior show that the woods are full of jumpers. As yet they are mostly prospecting around to see which is the most desirable prop erty to take, and, as soon as the Land Office is ready to receive applications for lands within the forfeited grants, they will file their claims. Then they will try to assert a right of possession, and the trouble will begin.

Naturally, many of the present occupants, who derive title through the railroad company, are nervous over the nenace, and many of them will fight for their rights. To such we have a few words of advice. Don't get excited. Don't proceed to extreme measures, and place yourselves in the awkward position of disturbing the peace or committing an overt act. Don't do anything that will warrant the jumpers in swearing out a complaint against you, and putting you in jail. That is the very thing that suits them best, as it gives them a chance to proceed with lief, sustain his vote. Certainly this is their jumping without further interference. If a man wants to squat on a corner of your land, let him squat, so known. long as he does not destroy property or interfere with your regular operations. If you must get rid of him, hire a lawyer and apply for a writ of ejectment. Place yourself behind the law, and not in a position antagonistic to it. If the squatter destroys property or interferes with your operations, have him arrested for trespass or malicious mischief. If his presence amounts to no great inconvenience let him stay, and he will have his trouble for his pains. That is the cheapest way to get rid of him, though it may require the exercise of a good deal of patience and fortitude.

We published, shortly after the rendering of the Supreme Court decision in question, extracts from a law passed by Congress which is designed to protect bona fide settlers and holders of land on forfeited railroad grants. Its provisions are comprehensive and farreaching. Every citizen of the United States who has purchased land from a railroad company in such a grant, whether it turns out that the company had a right to give title or not, is pro tected in his rights. The law provides that, if the grant is forfeited, the bona fide purchaser has the first option to purchase said land from the Government at the regular price, and the railroad company must refund to him all amounts that he may have sections 5, 7, 8 and 9 of the outfall it. The usual homestead limit does not apply to lands thus individual who may acquired. An states frankly that, in his opinion, this have purchased a thousand acres o more from the railroad company can hold it all on filing the proper application with the Land Office. Whether the purchaser has secured a deed from the railroad company or merely holds his land under contract with a partial payment made, it is just the same. law is so full and explicit that there is no question as to the protection which

is given to boda fide holders. There is this one loophole, however, which the present possessors will need to look out for; the right to perfect title is given only to citizens of the United States, or intending citizens, This, we suppose, applies to a man or woman who is a native of the United States or to a foreigner who has been naturalized or has declared his intention

at once and be guided by him. Most of the men who are going about the country trying to jump land are not fully advised as to the true situation, or are acting on false impressions altogether. They proceed in a harum-scarum way, thinking that all they have to do is to prove occupancy and get in the first application for homestead entry. They do not stop to think that no homestead claim is granted without a full hearing, if there is any adverse claim, and that when it comes to a hearing the possessor under railroad purchase has every ad-

vantage under the law. Those who wish to look up the law for themselves will find it in the United States Statutes of 1886-7, page 556, act approved March 3, 1887. tion, which has been quoted hitherto in

these columns, is as follows: Section 4. That as to all lands, except those mentioned in the foregoing section (lands tomesteaded before the date of the railroad grant), which have been so erroneously certified or pa-tented as aforesaid, and which have been sold by the grantee company to citizens of the United States, or to perons who have declared their intention persons so purchasing in good faith, his heirs or assigns, shall be entitled to the land so purchased upon making proof of the fact of such purchase at the proper land office, within such time and under such rules as may be prescribed by the Secretary of the International Control of the Internation rior, after the grants respectively shall have been adjusted; and patents of the shall relate back to the date of the original certification or patenting; and the Secretary of the Interior, on behalf of the United States, shall de-mand payment from the company which has so disposed of such land of an amount equal to the Government price of similar lands; and in case of neglect or refusal of such company to make payment as hereafter specified, shall have been made, the Attorneywithin ninety days after the demand brought against such company for the

The Republicans and Stephen M.

White. Reports from Sacramento announce that Jeremiah Lynch has withdrawn from the Senatorial race and that the election of Stephen M. White is considered certain. Still, in these contests, there is always a chance for a slip "'twixt the cup and the lip." The Populist vote is, to a great extent, an unknown quantity. Republican legislators from the South will, of course take advantage of any circumstance that may arise to render possible the election of a Republican Senator. That is a manifest duty, of which they do not need to be reminded. In the case, however, that the election of a Republican Senator is shown to be impossible and this is manifestly the state of the case now-the Republican members from Southern California will certainly fulfill the wishes and subserve the interests of the mass of their constituents by supporting Stephen M. White, a man of known ability and character, who is big enough and broad enough to be the Senator of the whole State. To permit the office to fall to a less worthy man through the negative or hostile action of the Republican members, in an emergency that may possibly yet arise, would not, in our judgment, be justifiable action on their part. If, in any contingency that may occur, any Repub lican legislator should vote for Stephen M. White, he will not do so because that Republican member has turned Democrat, nor because Mr. White has turned Republican, but despite these things. He will so vote, if at all, because the exigencies of the situation demand and justify his vote for a political antagonist. And the Republican constituency

Mrs. Pacheco, the authoress of this comedy, is the wife of the Hon. Romundo Pacheco, who, during his political career in California, held in succession very important positions in the State Government. Mrs. Pacheco is a laddy who has read many books and talked cleverly to all the wise men of the Nation. She has dropped some of them into her play, and, as the play shows, very successfully. During her stay in Washington she saw much of political life, and was as popular there as she has been in California. Six years ago she accompanied her husband to Mexico, and resided at the capital of that republic two years. authoress of this comedy, is the wife of

The regular meeting of the Southern California World's Fair Association, held Wednesday afterneon in the rooms of the Los Angeles Chamber of Commerc, was one of the most successful meetings of the past year. The session lasted from 2 to 10 p.m., and then adourned and met again yesterday at 7:30 a.m., adjourning at 10 o'clock to meet at the call of the president, as it is the supposition that extra sessions will have to be held from now until the opening of the great fair.

The members present were Messrs. Kimball, Wells, Jones, Bundy, Klokke, Forrester, Crafts and C. L. Loyd, with Kinton Stevens proxy. Messrs. Young and McIntyre were also present from the association.

After reading the minutes of the previous meeting, the Finance Committee reported auditing bills to the amount of \$106.15, which, upon motion of Mr. Jones, were ordered naid.

"A report was read from the Art and Literary Committee upon the subject of the publication of the World's Fair pamphlet; the same recommending the issuing of 50,000 copies, containing 126 pages of printed matter and twenty-eight illustrations; modeled after the pamphlet issued by the Bureau of Information; also recommending the issuing of 5,000.000 folders, containing short sketches of descriptive matter of Southern California, with instructions as to how and where the namphlet could be obtained as it is not the intention that the pamphlet shall be promiscuously distributed.

Each committee was to look after this feature in its own county. In connec-tion with this report, it was intimated that the Bureau of Information were de sirous of having the issue increased to 75,000, as they could handle at least 25,000, if the book came up to the representations of the committee. The report was adopted and the committee instructed to proceed with the work and, if satisfactory arrangements could be made with the Bureau of Information, to increase the issue as requested.

The same committee reported that a proposition had been made, by the man-agers of the Chicago Exhibit Association, that the exhibit be reopened in neighborhood of the Auditorium Hotel, in Chicago, who down-town!' World's Fair headquarters could be established, where the pamphlet and mis cellaneous reading matter could be dis tributed to parties seeking information relative to California. This matter was referred to a committee consisting of Messrs. Klokke, Young and Lloyd, with instructions to confer with the parties interested in the existing for such a feature; and also to estimate the expense at which it could be carried out.

The Committee on Citrus Fruits and Fruit Trees reported through its chairman, Mr. Jones, that Mr. Wells, in be half of the State Commission, had taken an invoice of the trees in the Southern country, in his round of inspection, and reported the majority of them in good condition. There will be required, however, a few additions in order to complete the display of ornamental plants, vines and large fan and date alms and century plants.

Mr. Forrester reported that he had

procured 500 additional hedge plants for the ornamentation of Horticultural court. On receipt of this report, it was resolved as the sense of the association that in addition to filling the true of the Republican constituencies it agreed to fill one-half of the roof garden of the California building with of the South, where Mr. White is best

ornamental trees and plants.

Mr. Lloyd, in behalf of Santa Barpara, reported that they would have 100 trees and tropical plants, in addition to the reports already given. This includes two palms that weigh, when boxed, sixteen tons each

The same committee reported a proposition from the Phillips Excursion Agency, wherein it was stated that their previous offers of a round-trip ticket to the World's Fair for the best exhibit of grain had not been taken and that they would now place the proposition in the hands of the commit tee to offer the same premium for the largest and best variety of citrus fruits (quality taken into consideration) fur-nished by one individual for the exhibit at the opening of the World's Fair May 1, 1893

The same was accepted, and the pre-mium is now at the disposal of the citrus-growers.

nmunication was read from L A communication was read from L.
M. Holt, asking the cooperation of the
committee in the management of the
State Citrus Pair to be held in Colton
this spring; requesting that a dress
parade of the World's Fair exhibits be one of the features of the fair.

After considerable discussion, it was recommended that the various county committees loan to the Twenty-eight District Association such World's Fair exhibits as can be displayed without in-jury, provided the same is transported expense of the said association

Mr. Holt also requested that a committee be appointed from this association to select judges for the citrus fruits. The following gentlemen were selected to act as such: Messrs. McIn-tyre, Kimball, Lloyd, Bundy, Crafts and Stein; this committee to be called together when the awards is made public. when the classification of

Mr. Wells brought up the matter of the early citrus exhibit to be field prior to the opening of the fair, and stated that he had forwarded the following dispatch to Chicago, which explains it-

self:

J. M. Samuels, Chief Horteulture, Chicago, M.: Can California borrow space from other States for citus exhibit at opening? It not we will reopen the question of March exhibit. We can make \$20,000 display at that time, but only through division of gate receipts.

To which a reply was received yesterday morning as follows:

Can not divide gate receipts. May not be able to borrow from States exhibits space free.

J. M. SAMUELS. Mr. Crafts suggested the feasibility of consulting with the citrus growers in each district, relative to arranging among them for the early exhibit, as he was confident that the space allotted to Califordia in the Horticultural build ing was not sufficient for making the exhibit of the citrus industry, and he considered an early exhibit, when plenty of space could be secured, to be

THE WORLD'S FAIR. a feature that would be well worth considering, for his part he would be in favor of undertaking it.

The Committee on Dried Fruits re-

ported progress.

The Committee on Cereals, Bee-culture, etc., reported a scarcity of corn in the ear, and requested that an extra effort might be made in collecting an exhibit in this line. This committee recommended the engaging of a twenty-five-foot show case for the honey dis-play in the Agricultural Department. The recommendation was approved and

the case ordered. The Committee on Mines and Mining reported that San Diego county would not make an independent exhibit, but would place her exhibit in the State classification; also that San Bernardino county proposed placing a salt arcade, built of crystal salt, in the Department of Mines and Mining dimensions 14x20

The special committee on the "Palace of Plenty" reported two plans submitted; but the estimates on each were such that the committee thought it impossible to adopt them; and it was in-structed to simplify the plans or suggest

some other feature.

The subject of the "Pampas Plume Palace" was brought up, and a committee of three, consisting of Messrs. Crafts, Young, and Lloyd, was appointed to consult and decide what relation the Southern California Association should take in the matter. This committee recommended that the association place the construction of the palace under the management of and that the association pay fifty per cent. of the expense, providing the ex-pense does not exceed \$1000. The recommendation was adopted.

The matter of installing the display of

exhibits of Southern California in the State building was discussed, and a committee of one from each county was ap pointed to map out a plan and report at next meeting for such installation. This committee consists of Young of San Diego, Holt of San Bernardino, Bundy of Orange, Wiggins of Los Angeles, McIntyre of Ventura and Lloyd of

Santa Barbara.

The scale for judging of California fruits was taken up, and it was the sense of the meeting that Chief Samuels be recommended to adopt the scale introduced by Mr. Cutter of River

Several communications were read from parties desiring positions under the commission and placed on file. After the appointment of Frank Wig-gins as general manager of the South-ern California World's Fair exhibit in Chicago, the Executive Committee adjourned to meet at the call of the

THE SENATORSHIP.

The Anti-White Element Dumbfounded by Foote's Withdrawal.

Democrat Wins It Will Be White, and He Will Go on His

Special Correspondence of The Times. San Francisco (Cal.,) Jan. 8, 1898.— Coote's withdrawal from the Senato rial race seems to have completely dumbfounded the anti-White element or, as a prominent Democrat here face-tiously observed: "White's enemies have been knocked out, Hearst, Footo and dragoons." This illustration is so 'dragoons' before a Senator has been inally elected. In fact, ontside of som of the smaller papers and a few small-fry Democratic politicians here, every one concedes that if any Democrat wins one concedes that if any Democrat, whis the prize it will be Steve White. The question now has resolved itself into this: "Can White get two votes out-side the party?" Conceding him the caucus nomination and the full fifty-nine Democratic votes on joint ballot, he must, to be elected, get two votes from either the Fenyllicans or Populists. either the Republicans or Populists. The latter, evidently backed by the Examiner, which is still defiant, are standing firm and have sworn allegiance nas V. Cator. The Republicans question and not one of the prominent men who were mentioned before elecof a nomination now. So far, there is absolutely no boodle in the fight, and unless appearances are deceptive, Steve White will "get there" solely on his merits, and despite the opposition of the Examiner, the Oakland Times and the lesser "dragoons."

but here in San Francisco a few of the shrewdest politicians whom I met a the Democratic State Committee head quarters at the Grand Hotel seem to figure it out this way—White will have fifty-nine sure on every ballot. The Populists, as things now look, will be aided by San Diego's railroad promoter, Carlson. This makes a body with nine votes which will be cast for Cator. How long they will hang together no one seems to know. The only chance for Cator's election is by the Republicans giving him their entire fifty-two otes, something improbable and al lost impossible. In fact, if any Repub lican votes are given to any one out-side the party, White will be the bene-ficiary. The Republicans, it is underside the party, white will be the best and ficiary. The Republicans, it is understood, will give a complimentary vote first to De Young, then to Estee, and so on until the list of prominent men in the party has been gone through with, or until the "critical time" comes.

This means that should those Popu-

This means that should those Popu lists who have been elected by Demo cratic aid, and who have given ante election promises to vote for White, should they still persist after, say, the fiteenth or twentieth ballot, in voting for their own candidate, enough Republicans from the southern part of the State will scatter and throw their votes to White to elect him. This "critical time," however, is not expected to arrive. Democratic leaders here seem to have no fear whatever but that Kerns of Los Angeles county and Bennet of Orange will, at the proper time, keep their ante-election of Orange will, at the proper time, keep their ante-election pledges and vote for White. In that case the contest will be ended-if not, the reserve strength, as outlined above will be brought into play. In any event, it is safe to gamble that our Steve will be the next Senator from California.

In regard to Cator, every one concedes his honesty and capability, but what tells mostly against him is the taint of "tenderfootedness" which, ac-cording to the Monarch, is almost a crime in any one whom it opposes. Probably this charge will not now be pushed against White's only known competitor as it was against White's supporters before Foote got out of the

Cator's record is good. He was a member of the New Jersey Legislature about ten years ago, and was a consistent opponent of corporate aggrandizement. I believe he served only one term, and was defeated for renomination, it is claimed, by the Pennsylvania Railroad crowd. I reported that particular session at Trenton, and I know there were many worse fellows in the New Jersey Assembly than Cator.

But White's record is equally as good, if not better, and from every point of view he is the man for the place.

The trial of the case of A. E. Davis vs. A. W. Eames and F. C. Bolt an action to recover \$2500 damages for an alleged breach of contract, was com-

ment Five yesterday.

The plaintiff alleged that on July 16 1890, he entered into an ageement with defendants, whereby he agreed to convey the Todd mine in the Wallapa district, Mojave county, Ariz., at the expiration of four months, for the sum of \$6000, they agreeing upon their part to proceed at once to sink a shaft 5x8 feet for at least 100 feet, and to cross-cut the ledge on the fifty-foot level the shaft. He claims that they imme diately thereafter entered into posses sion of the property, but failed to carry out their part of the agreement, to hi

damage in the sum prayed for.
The defendants, on the other hand, claim that when they entered into the agreement it was represented to them that the mine contained a well-defined voin of gold and silver ore, valued at \$100 per ton at least. Relying upon these representations, they took possession of and spent considerable money in working the mine, as agreed upon, but upon ascertaining that the further they developed it the thinner the vein be-came, they stopped work and tunneled elsewhere, but without better success They, therefore, claim that they, and not plaintiff, have been damaged, and demand judgment against him for \$2500

The taking of testimony will be resumed this morning. JUDGMENT FOR THE PLAINTIFF.

Judge Van Dyke yesterday morning rendered his decision in the case of the East Side Bank vs. O. A. Vickery, ordering findings and judgment for the plaintiff therein in accordance with the following brief opinion:

following brief opinion:

This cause was tried and submitted on November 29; 1892, with leave to defendant's counsel to furnish brief within two days in support of his contention on the question of the collateral secarity or pledge which was sold and proceeds applied on the debt. No brief has been presented, presumably for the reason that upon investigation counsel has satisfied himself the point is not well taken. At any rate, the Court is of that opinion. Findings and judgment will go for the plaintiff.

LEFT THE BRIDE AT HOME. Man Who Wanted to Get Married by

Himself; Yesterday afternoon a Justice Bartholomew and Clerk Beck were sitting in the Township Court, musing upon the mutability of life or something equally interesting, their cogitations were interrupted by a couple of swarthy Italians, who presented themselves at the bar of justice and demanded an audience of His Honor. Hastily doffing his hat, and assuming his most dignified air, the magistrate opened his minute book, and inquired the nature' of his visitors' business. One of the two, who was evidently officiating as interpreter, pointed to his companion, bowed pro-fusely, and replied: "Joe, he want to get marry." The other also bowed to the Court and grinned in acquiescence.

The Justice smiled benevolently and inquired the names of the bride and groom. These proved to be Dominila Manelli and Giovanni Riscco.

"Got a license?" asked the Court, sententiously.
"Si, signor!" replied the interpreter, and the requisite paper was produced, and duly scrutinized by the Justice, who then asked when the pair desired to have the ceremony performed. As the men appeared to be alone, the Justice was somewhat surprised when the interpreter replied that his companion was eager to get it over at once; but, supposing the bashful bride was out in the hall, he said, curtly, well, call in the woman." A look of blank aston ishment bespread the features of the

had been repeated, he turned to the bridegroom and conversed with him in Italian for several seconds. He also appeared very much surprised, but grinned and bowed at the Justice, who asked, blandly: "Where's the woman?" "The signora, she be at home, Judga," replied the interpreter. "She tell Joe, go getta the marfy, and he go." With some difficulty the Court managed to make his visitors understand that the presence of the woman was necessary and an hour later they re-

necessary, and, an hour later, they re-turned with the blushing bride, when the ceremony was duly performed, the worthy magistrate further surprising the bridegroom by pocketing his fee and kissing the blushing, bride at one and the same time.

The Rate on Beans and Borax Not Met.

The Santa Fe in No Hurry to Take Losing Business.

Gratifying Showing of Freight Traf fic East and West.

Cutting Passenger Rates to Chicag New Purchasing Agent for the Santa Fe-Local and Personal.

Yesterday the new and greatly re duced rates on canned goods, wine, beans, borax and brandy from Call-fornia to Chicago and New York went into effect on the Southern Pacific, but as yet there is no announcement of the Santa Fé's intention to even meet it. The indications are that the Southern Pacific can afford to make a 50 cent rate to Now York for a that the Southern to New York, for, as that company owns its own line by rail and boat clear through, there are no divisions and proratings to cut down the profits. There are four roads in the Santa Fé's system between California and Chicago, each of which must have a share in any tariff put into effect, and a rate that is ob-viously unprofitable cannot be made to cover the needs of the various divisions. Representatives of roads connecting with the Southern Pacific's Ogden route say that the new rate means a dead loss on business done, but they will solicit patronage just as vigorously as though the old rate were in vogue.

SANTA FE FREIGHT BUSINESS. The freight business on the Santa Fé. both to and from California, showed an increase in December over the cor-responding month of the year before. The report of business done in the last week in December shows a good in-crease in everything except west-bound reight, originating on the Atlantic and Pacific, which fact is charged to the coal competition by way of water routes. In line freight, that is, the through traffic, the increase is gratifying. Traffic officials here feel a degree of pleasure in contemplating the figures showing the amount of last year's business.

MR. VICKERY'S DEATH.

An Authorized Statement of the Facts Connected With His Last Illness. The funeral of the late John C. Vickery, who died Wednesday morning, will take place from the family residence, on West Seventeenth street, this afternoon.

As so much has been said about this sad case, THE TIMES is authorized to publish the following details of Mr. Vickery's last illness:

Vickery's last illness:

A chiropodist pared and cauterized a corn and opened an abscess on Mr. Vickery's foot. Unfavorable symptoms ensuing, Dr. Kuster was called in, and Dr. Francis Haynes visited the case as consultant. When Dr. Kuster relinquished the patient, he was succeeded by Dr. Brill, who asked Dr. E. R. Smith, Dr. John R. Haynes and Dr. Francis Haynes to act as consultants. A chemical examination of the secretions having in the mean time been made, it became apparent that the papient was suffering from diabetes (a disease in which sugar is excreted by the kidneys,) and the case was pronounced to be practically hopeless. The toe was removed by Dr. Brill, with the concurrence of the consultants.

Now gangrene is a very common occurrence when any injury, however slight, is inflicted on a diabetic, and in fact often occurs in the absence of an injury. It is not improbable that the abcess opened by the chiropodist was merely a symptom of commencing gangrene.

Mr. Vickery's family and the physicians who attended him in his last illness distinctly disclaim any wish to blame any one for their relative's illness and death. There is no evidence that the chiropodist treated the case unskillfully. The statement that Dr. Kuster showed any lack of knowledge or care originated in an irresponsible source, and is deeply regretted by all concerned, as calculated to injure a reputable physician and worthy citizen.

UT your eyeglasses on and enlarge your think factory for a few moments, and listen to our story. It may not be as interesting as one you could tell your. self, but it may tickle our fancy and enlarge the capacity of our pocketbook. We have a new remnant counter, Some call it a job-lot counter, others a bargain counter. It is really an economical bargain counter. It saves you money and gives you an opportunity to supply your wants at a more reasonable price than usual. If we were like other merchants, we could tell you we were selling goods at less than cost. "We are the leaders, etc," but people generally, have been cracking this same old chestnut for you, and they begin to hanker after something new, For that reason we say you can buy one yard up to seven yards of dress goods off this counter at an economical price, and we mean economical in every sense of the word. Hundreds of remnants, not only in dress goods, but in cotton as well. Remnants of silks, satins, velvets. Odds and ends in notions, hosiery, and odd lots of a little of every. thing; jewelry, thread, toys, dolls, games, boys' clothing, shoes, The variety is about as large as anyone could We give glove boxes free to every purchaser of a pair of kid gloves. Japanese glove boxes at that. They have all the quaint scrolls and figures that only the Japanese know how to get up. We still sell linen and towels and napkins. You will find a choice display in the linen room. This is the only linen room west of Chicago, How is a division of 2500 miles between this linen room and the other fellows? Cloaks for big and little women, and for those betwixt and between in size. Our cloaks are reasonable in price, \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00 on up. Royal Worcester Corsets; you know their reputation. Millinery, fine trimming, and nothing extra tucked on for this. Largest dress goods department; samples if you like them. No urging of sales; one price. We treat you white, whether you wish to purchase or not. We do not ask our girls to come back Sunday to work; we close Saturday nights as well as every other night in the week.

A Card to the Public!

SAN FRANCISCO MARKETS.

TIMES.] The vegetable market is lightly supplied with early varieties, and prices are unchanged. In potatoes there is a good demand for choice lots, which are comparatively scarce, owing to heavy loss through wet and frost on the river and up

north.

The market for fresh fruits is in a poor way, and business is dull in all lines. In citrus fruits limes hold up well. Oranges are very plentiful, with slow sales.

College Glee Club Concert at the Operahouse.

ne Remarks Pertaining to the Growth of the Town-Points About People
You Know-Batch of Brev-

The Glee Club of the University of California appeared before a small audience a operahouse Wednesday evening. se present, however, were ardent admirers of the Berkeley boys, and what they lacked in numbers was made up in enthusi The programme was not a long one but the numbers were happily chosen, an were rendered in a manner that stamped the organization as thoroughly first-class. The voices blended well, and, had the tenors been a trifle stronger, no room would have been left for criticism. Some new songs were sung, and some of the old favorites in college circles were worked in as encore to good effect. The instrumental part of the programme was equally satisfactory, the violinists displaying more than ordi nary talent. Altogether, the entertain-ment was one of the best seen here this winter, and it is to be regretted that the patronage was not more liberal.

NOTHING DEAD ABOUT THESE DIGHINGS. Once in a while a kick is registered con cerning the non-progressive spirit dis-played by local individuals or some of our public organizations, as for instance the Board of Trade, but the fact still stands out in bold colors that today Pasadena is one of the liveliest, most prosperous and best advertised towns in the State.

Sald an Eastern tourist a few days ago:
"I visited Los Angeles this afternoon, and
apon my return it actually seemed to me as
if more people were walking and riding on if more people were walking and riding on Colorado street in Pasadena than on Spring street in Los Angeles." (However this may be, the fact is undisputed that this town has entered upon an era of prosperity and growth which is founded upon the subtantial basis which its attractiveness and es afford.

stantial basis which its attractiveness and resources afford.

Not only are new residences and business blocks building, their style and elegance offering permanent testimonials to the wealth and good taste of their owners, and to say nothing of their owners, and to say nothing of their owners, and permanent residents this winter, but best of all is that the old timers—the men who have lived here from the time the town was founded—are coming nobly to the front in all matters pertaining to the welfare of the community by going deep down into their pockets whenever occasion demands.

This is business, and it is having its effect on the outside world. The achievements of the past year, such as the develpments of the past year, such as the develpments.

This is business, and it is having its effect on the outside world. The achievements of the past year, such as the develoment of the water system, the building of a mammoth storage reservoir, the practical carrying out of Prof. Lowe's great mount tain railroad project, the completion of the sewer system, and many other matters of minor import, mark the spirit that animates the citizens today. Not only this, but when the people are asked to subscribe as large a sum as \$1500 for an advertisement at the World's Fair, the offer is promptly accepted, half the amount is a promptly subscribed, and the rest of the money will soon be forthcoming.

Thus does the place grow, not only on its climate and wealth of natural attractions, but on the intrinsic merits of the country and the business enterprise and sagacity of

Trustees—Considerable Municipal
Business Cleared Up—A Peculiar Accident,

The sessions of the Board of County Supervisors this week have been busy ones, as the officers appointed as deputies by the chiefs of departments have had to be approved and their salaries fixed. The indi-gent have had to be given much attention also, and the allowance for each made out. A large sum of money is thus expended by the county each year, indigents outside the county poorhouse, or hospital, as it is termed, receiving from four to twenty-five dollars each per month. The expenditure of the county for this purpose seems unnecessarily large. If the poorhouse and farm

The account of the sensational shooting scrape in Tustin, published exclusively in THE TIMES yesterday, was the topic of conversation on the streets of Santa Ana yes-

-Mr. and Mrs. Barnett do not live in Tustin at the present time. Their home is in Bakersfield, but Mrs. Barnett was on a visit to her parents, who live on the place and in se over which the trouble between Barnett and Deyoe originated. When Mrs. Barnett wrote her husband of the manner in which Deyoe addressed herself and mother, that gentleman at once determined to come down and settle the matter himself

to come down and settle the matter himself according to his own liking.

Sheriff Lacy went out to where Mrs. Barnett is staying early yesterday morning, but could learn nothing of her husband. Later, however, the father-in-law of Mr. Barnett, James E. Petty, came into town and told the Sheriff that he would bring his son-in-law in to give himself up as soon as he could arrange for his ball, as he did not want him to have to lie in jail, but up to a late hour in the afternoon he had not but in an appearance with the fugitive from justice.

Justice.

Mr. Deyoe was visited yesterday at his home in Tustin by a correspondent to whom he complained of the publicity given the affair and of the sensational report which he claimed was published in The Times yesterday morning. He claims that the statement which appeared in that paper accusing him of using profane and insulting language to Mrs. Barnett was untrue. He was agent for and had sold the place upon which the Barnett and Petty families lived, and he went with the purchaser to request them to move out as soon as possible, as he wished to give the new owner possession, whereupon the ladies commenced to give him, a severe tongue-lashing. The same thing occurred on the following day when he went over and again requested them to move out at the expiration of the lime for which they had paid rent. He turned round and was going off with his team, when one of the Petty boys came out and advanced in a threatening manner, whereupon he dropped the lines and faced about again, telling them they had better go into the house. He remonstrated with them for what he considered their 'unseemly language, but'did not say anything that could be construed into an insult to a woman. He had been warned, just before the attack, that a bad man from Bakersfield, with a Winchester, was coming for him, but paid no attention to the report, as he knew he had done nothing to warrant an encounter. The first intimation he had of the presence of Barnett was seeing him jump from behind a lemon tree, as he was cultivating the row, exclaiming, "You have insulted my wife and must fight," at the same time striking him with the butt of a pistol or a rock, he could not tell which, the words and the bow being simultaneous. He swung half round on the seat in order to defend himself, when he received another blow which knocked him off the seat. He then struck Barnett a heavy blow with the butt end of his buggy whip. Barnett wheeled around two or three times and fell. A steel bar which ran through from one handle of the cultivator to the other

Marshall shall, be appointed to fill said vacancy on the following basis: (1) Ordinances No. 89, 90 and 91, nor either, of them, shall not be repealed or amended till after the new members of the board shall be seated after next April election, but shall be enforced in the mean time; (2) the boundaries of the First and Fifth wards shall be fixed and defined, and three Trustees be elected by general vote of the city at the next April election.

(Signed). "C. H. Marshall." Below the agreement is the following: "To S. J. Rolph, president of the Board of Trustees, Pomona: The foregoing are my sentiments, and, if I am appointed to said office, will be my course of action, whether all members agree to same or not. (Signed)

Mr. Marshall said to the reporter that when he signed the document he did not dream that the clause referring to the next election meant any more than the regular election, just as it had always been carried on by wards, and that he would not be buildozed into voting for a thing he never agreed to. That he did not believe the Second and Fourth wards, which have already elected high-license members, should be allowed to say what the other three wards wanted, and he would vote according to the wishes of the high-license people. Whom he represents. This being the case, it will very probably settle the city for some time as a high-license city, and the next election will be by wards.

As an illustration of the good prices awaiting the orange-growers, and the certainty with which they expect to get them, the following will be of interest to Pomona people: James Becket has a six-acre orange orchard, and it is a nice one. The other day a buyer offered him \$3500 for his crop, and Mr. Becket refused to take it, as the buyer wanted him to guarantée him against loss by the elements. And he was right. It is precious little Pomona has ever lost by the elements, and his crop will be not an add

bring him about six hundred dollars an acre.

The Times representative feels real "puffed up" at having won the handsome gold watch as a first prize for the agent showing the largest increase in subscriptions since November 1. When it is taken into consideration that it was just after election, when there are always subscribers who only take a daily amonth before, the increase is a good one. The following subscribers have been "added since December 31: N. Cohn of the dry goods firm of N. Cohn & Co., Dr. F. F. Little, O. R. Clark, Attorney A. B. Young, Mrs. Kirkland, A. J. Bush and Rev. B. C. Corey. The people of Pomona know a good newspaper when they see it, and the Times subscription list in Pomona is larger than that of all other dailies combined.

An Amusing Case on Trial Before Justice Austin.

Young Woman Charged With a Pett Offense-The Notorious Carrie Abbott Discharged-Highbinders at Work.

Rather an amusing case was tried in ustice Austin's department of the Po-

ice Court yesterday morning. Mrs. M. D. Parsons, a dealer in rib ons and fancy work, swore to a complaint charging a former employé named Miss Florence Thurston with having appropriated to her own use eight bolts of ribbon.

A search warrant was issued and a careful search was made in the young woman's home, but the discribed ribbon could not be found. Some pieces, which Miss Thurston claims were given to her by Mrs. Parsons, were found.

Both sides told their story without
the aid of attorneys, and the Court took
the matter under advisement until to-

The police have had more or less trouble with the "crib" women on Alameda street of late, on account of the numerous robberies that have occurred n the "cribs."

Hardly a night passes that some green countryman does not put in an appearance at the Central Police Station and with tears in his eyes tell how he

has been "done up" to the tune of from \$10 to \$50 by one of the women. Only a few nights ago John Schmidt claimed that a woman known as Carrie Abbott, who has been in the clutches of the police a number of times, had robbed him of \$14. The woman was promptly arrested, when Schmidt swore to a complaint and the case was set for trial in Justice Seaman's department of

the Police Court yesterday.

As is usually the case, the complaining witness did not show up, and the case had to be dismissed.

At an early hour yesterday morning another bright countryman reported that the notorious Jessie Dunbar had gone through his pockets and relieved him of \$50 while he was visiting her. No warrant was issued, as the police did not see any evidence in sight.

The Highbinders at Work. The Chinese hatchet men are again at work in Chinatown.
